SERVICES

CONSULTATION & DESIGN

No two marinas are the same, each having unique goals and challenges. At MariCorp, we approach every job with a mindset to produce solutions tailored to your site and market, ensuring a design that meets your specific needs and circumstances.

MARINE CONSTRUCTION

We can manage all phases of your project, including trades such as pile driving, electrical, fire suppression, plumbing, and fuel. By identifying and addressing issues early on, we help reduce unwelcome surprises and time delays, ensuring a smoother construction process.

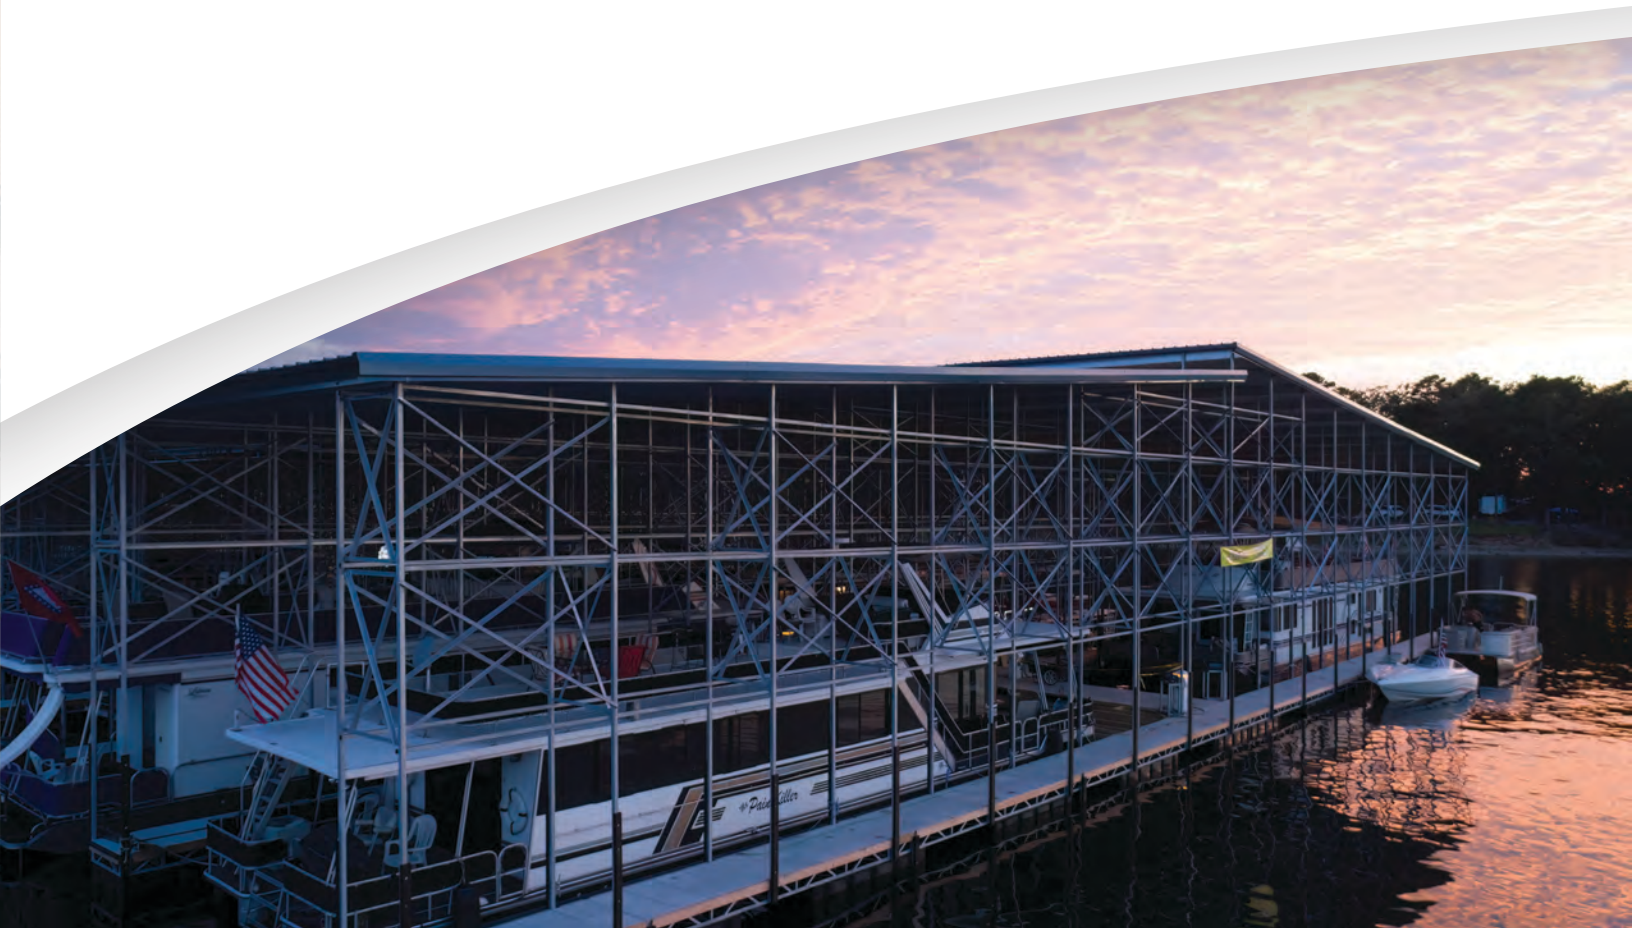

REPAIR & RENOVATION

From small-scale repairs to entire marina renovations, MariCorp has the expertise to handle it all. We are experienced in conforming to the aesthetics of existing facilities and can also make recommendations to breathe new life into a dated marina.

DISASTER RESPONSE & DEMOLITION

When disaster strikes, time is of the essence. MariCorp's disaster response team is ready to assist, helping to quickly minimize your losses and restore marina operations with efficiency and care.

“At MariCorp, we craft the world’s most durable floating boat docks, designed for the enjoyment of today’s boaters, and built to last for generations. Rooted in our core values of integrity and quality, we foster lasting partnerships with our clients, and take great pride in helping to build their waterfront dreams.”

PRODUCTS

COMMERCIAL DOCKS

As the leader in commercial marina manufacturing and construction, we have a long history of meeting our customers' needs. Our extensive experience as a general contractor, subcontractor, and direct supplier on projects for local, state, and federal governments, as well as private entities, enables us to provide detailed submittals, such as shop drawings and material certifications. We thoroughly review specifications to ensure they are met.

RESIDENTIAL DOCKS

We can design and build a customized residential dock to fit your family's needs. Your dock can include features like a swim platform, covered patio, solar-powered electric system, and even a helipad. We take pride in delivering a product that will be enjoyed for generations to come.

SHIP STORES & FUEL DOCKS

Our floating platforms can be engineered for a variety of applications, such as ship stores, restaurants, cottage foundations, fuel docks, and more.

BOAT LIFTS

Our slogan says it all: Elevated Above the Rest. Our Air Port Boatlift Systems are designed for ease of use and low maintenance, providing a reliable solution to keep your boat safe and secure.

ROWING DOCKS

For sculling, canoeing, kayaking, paddleboarding, and all paddle sports, we design rowing docks that meet your specifications.

WAVE ATTENUATORS

Wave attenuators reduce the impact of wave action on your marina, thereby increasing the lifespan and safety of your docks. We have experience with various attenuator designs and can work with you to determine the best solution for your site.
