Mid-Season Marina Maintenance Checklist

DOCK HARDWARE & STRUCTURE

- ☐ Inspect cleats, bolts, and fasteners for looseness or corrosion
- ☐ Walk dock planks/tiles and check for warps, splinters, cracks, or rot
- ☐ Check dock floats for leakage or imbalance
- ☐ Examine utility runs, fittings and connections for wear and leaks
- ☐ Visually inspect structure for loose hardware and metal fatigue or stress fractures
- ☐ Visually inspect ramps, gangway handrails, and transition plates
- ☐ Visually inspect all winch and cable installations and other anchoring systems

ELETRICAL POWER SYSTEMS

- ☐ Open pedestals and check for burnt wires or condensation

FUEL DOCK & STORAGE SAGETY

- ☐ Examine fuel hoses, nozzles, and fittings for wear or leaks
- ☐ Test shut-off valves and emergency stops

PUMP-OUT & SANITATION SYSTEMS

- ☐ Test suction on pump-out station; check for clogs or backflow
- ☐ Examine hose wear and verify timer functions
